(re)New Traction Motors

PowerRail is proud to announce the arrival of the D77/78 (re)New Traction Motor. These premium Traction Motors provide customers with a *like* new motor, equipped with new rewind armatures, shafts, pinions, commutators and new rewind inter poles and field coils, resetting the life of the motor with a more cost-effective price tag than buying new.

D77/78 (re)New Traction Motors Include:

- New Field Frame (Stator Body)
- New CE and PE Bearing Housing
- Newly Rewound Field Coils
- Newly Rewound Interpoles
- New Armature Shaft
- Newly Rewound Armature
- New Commutator
- New Outer Bearing Assembly Components
- New Cables and Connectors
- New Frame Wear Plates/Screen/Bracket Installation and Gaskets and Coves
- New Pinion (part number and specs to be supplied by customer)
- Two-year Warranty
